

# PAT SAYS NOW

Perfect Presentation

## Who is Pat Says Now?

Pat Says Now is Switzerland's first manufacturer of individual computer mice.

## Can I use the mice from Pat Says Now with any computer?

All our products are equipped with USB/PS2 port. An easy connection with any computer PC and Mac is guaranteed.

## Do I need any additional software to use the mouse?

No, the mouse will be recognized by the computer immediately and does not need any additional software.

## Do the Pat Says Now mice have a warranty?

Yes, all mice have a 3 years warranty from the date of purchase.

## What do I have to do in case of a warranty claim?

Return the mouse to your Pat Says Now dealer. He will replace the mouse and contact Pat Says Now.

## Do I have to clean the mouse?

No, due to the modern optical sensor there is no need to clean the mouse anymore.

## My mouse does not work properly. What can I do?

All Pat Says Now mice work via plug & play. If your mouse does not work properly check the connections and restart your computer. If the problem persists please deinstall your mouse driver and download a driver from the Pat Says Now homepage. You'll find them in the service section of the Mouseshop.

Pat Says Now GmbH & Co. KG  
Weusterstr. 7  
D-46240 Bottrop

We are looking forward to a successful cooperation.

An optimal presentation of the Pat Says Now mice is a key factor for better sales. Together with our most successful retailers we prepared a list of presentation tips.

### Boxes

Make sure the mice are presented in clean and intact boxes. Damaged boxes need to be replaced. Please request free additional boxes with your next order.

### Polybags

The plastic foils/bags in which the mice are delivered serve to protect the mice during transportation and should be removed before the mice are displayed in your store.

### Displays

We're sorry to say that even the original Pat Says Now displays are not dustproof. They should be cleaned regularly. Please use a light glass cleaner for all surfaces.

### Flyers

Make sure to put your stamp/sticker on the free of charge flyers. They should always be available and visible near the display. Do not forget to ask for your free flyers with every order. These «mini catalogues» generate future sales by reaching many new potential customers.

### Placement

Place the mice close to other high-quality gift articles, attractive brands and lifestyle accessories. The computer corner with CD-Rs and screen cleaners may not be the appropriate spot.
